Rome, Profile Of A City, 312-1308

Richard Krautheimer

The history of the city of Rome in late antiquity has traditionally been told as a straightforward shift of power from emperor to pope between the reign of Constantine (306-337) and the pontificate of Gregory the Great (590-604). The story conveys the image that the rising power of the papacy determined the political, social and cultural transformation of urban space and urban identity in late antique Rome. However, this (rather teleological) narrative overlooks, on the one hand, the continuing relationship between late Roman emperors and the city of Rome, and, on the other, the presence in Ro... A.
