Suicide: An Essential Guide for Helping Professionals and Educators

Darcy Haag Granello, The Ohio State University
Paul F. Granello, The Ohio State University

Suicide: An essential guide for helping professionals and educators encapsulates literature on suicide into digestible chunks. With more than 700 references, it is a highly researched book, but it is intended to be highly readable and to make the information accessible to individuals who want to learn the latest information about suicide prevention, assessment, and intervention.

Features include:
- use of case examples and case studies in each chapter
- several chapters on risk factors in multicultural and other high risk populations
- a chapter on assessment that provides solid, practical information
- a chapter on prevention activities for schools
- appendices with Internet resources for the most up-to-date information

It truly is an essential guide to helping professionals and educators, and I would add, anyone with an interest in understanding suicide better. —Daniel R. Cruikshanks, Ph.D., PCC-S Associate Professor & Clinical Coordinator President, Ohio Counseling Association Graduate Studies in Counseling Heidelberg College Tiffin, Ohio 44883 419.448.2308 […] If someone were ordering this book as a self-help guide they would have been given a free utensil to utilize. I strongly feel that an individual at amazon.com should have been aware of this before placing a razor in the same box as a suicide text book. Goodreads helps you keep track of books you want to read. Start by marking “Suicide: An Essential Guide for Helping Professionals and Educators” as Want to Read: Want to Read saving… Want to Read. Through use of this material, helping professionals will gain insights, practical skills, and therapeutic confidence into their work with the suicidal individual. Readers will appreciate the practical tips, lists, resources, and case studies available throughout. Features Include: Use of case examples and studies throughout. A full chapter on assessment provides solid practical information on a skill not often taught to pre-service helpers.
