The sets we have included reflect a wide selection of the most accessible, “field-tested” material available, arranged for a four-piece band in a sequence that’s meant to keep your audience entertained. Use Gig Guides in rehearsal and performance, following along with the lead sheets and individual parts. Each song includes:

• A two-page lead sheet with chords, melody, and lyrics • An intro page with song facts, song form, and performance tips for the full band • A page of guidelines for each bandmember, including crucial parts and performance tips for vocals, guitar, keyboards, bass, and drum • A full performance demonstration on the accompanying CD.

Song intro pages contain information that might be useful to the frontperson as between-song banter: the story behind the song, when and by whom it was recorded, and so on. Parts and performance tips are written by professional musicians with field experience (not just some guy in a cubicle). If all bandmembers follow their parts in the book and the accompanying CD, and the band rehearses well, your group will be gig-ready in no time! (All books include guitar and bass tab.)

CLASSICAL SONGBOOK
Fantasy is such a good way to get your head outside your usual setting. You can step inside magnificent worlds (or familiar settings!), meet wonderful monsters and creatures, fight alongside heroes and villains and get that luscious political intrigue you search for. If you crave stories that take more than one book, check out these fantasy book series for adults. The Book Series contains a collection of quotes that embody the multiple facets of humanity through my eyes. This is an on-going continuous project of mine, and will be adding more books as I go. To kill a mocking bird. Harper Lee. In light of the social, political, and cultural events happening around the world, especially in our country (U.S), this book as a whole serves as a simple reminder of humanity when stripped of its social and political agenda. These sci-fi book series are out-of-this world page turners. We’ve rounded up some of the best sagas so you can start your escape from reality immediately. If you love to read, then you’re probably just as thrilled as we are when you turn over a book’s cover and see that it’s a part of a series. There are few things better than reading a great book and knowing that the characters you’ve grown to care for will (hopefully) live to see another day in subsequent novels in the series.
